## Introduction

English Speaking Board (International) Ltd. (ESB International) offers high quality Speech and Language qualifications in the UK and internationally. It aims to promote clear communication at all levels and recognises the potential of all.

The assessments are marked and administered externally by ESB International. ESB International also provides training to teachers and assessment staff, and its team carry out inspections of assessments and oral exams in a variety of venues.

ESB International's ESOL International qualifications are mapped to the Common European Framework of Reference for Languages (CEFR) and are designed to encourage progression.

## Qualification Criteria

This specification describes the ESB Level 1 Certificate in ESOL International All Modes (B2), covering speaking, listening, reading, writing and use of English. It is intended to support ESOL (English for speakers of other languages) teachers and learners in the classroom and includes information on how the assessments will be conducted and the range of language to be assessed.

ESB Level 1 Certificate in ESOL International All Modes	
<b>CEFR Level</b>	B2
<b>Assessment method</b>	Paper-based tests – multiple choice completed on optical mark forms and externally marked and moderated.  Writing tasks completed on paper in an answer booklet and externally marked and moderated.  Speaking assessment conducted face-to-face with ESB trained assessors/interlocutors.
<b>Regulation start date</b>	1 <sup>st</sup> February 2008
<b>Qualification number</b>	500/3647/6
<b>GLH/TQT *</b>	300 hours / 330 hours
<b>Age range</b>	Children from age 11 to adult learners

\* GLH (Guided learning hours) are the suggested number of hours for a learner to be taught by an English teacher, tutor or other appropriate provider of education or training in preparing for this qualification.

TQT (Total qualification time) is an estimate of the total amount of time that could reasonably be expected for a learner to achieve the level of attainment necessary for this qualification. It includes both the number of hours assigned to a qualification for Guided Learning, and an estimate of the number of hours a learner will be likely to spend in preparing for the qualification with the tutor's guidance but not under his or her direct supervision.

All learners differ in their educational and personal circumstances, previous learning, motivation, and rate of learning so these figures indicate the relative size of qualifications and are not definitive.

## Qualification objective

The ESB Level 1 Certificate in ESOL International All Modes is the third of a portfolio of ESB ESOL International qualifications at B1, B2, C1 and C2 on the Common European Framework of Reference (CEFR). ESB ESOL International Examinations are designed to demonstrate the ability of non-native speakers of English to speak, listen, read and write in English and are suitable for learners wishing to improve their level of general English for personal, academic or professional reasons. These qualifications are appropriate for anyone from the age of 11 upwards and encourage progression and measure learners' attainment as they move through the CEFR levels on their learning journey. The four ESB ESOL International qualifications provide learners with the opportunity to achieve a high quality, internationally recognised qualification at the CEFR level appropriate to them and their educational circumstances.

B2 is the higher of the two B levels on the CEFR, which describes independent users as those who can understand the main ideas of complex text on both concrete and abstract topics, including technical discussions in their field of specialisation, interact with a degree of fluency and spontaneity that makes regular interaction with speakers of the target language quite possible without strain for either party, produce clear, detailed text on a wide range of subjects and explain a viewpoint on a topical issue giving the advantages and disadvantages of various options\*.

## Prior knowledge, skills and understanding

There are no prior learning or formal qualification requirements for ESB ESOL International qualifications. Each qualification level in the ESB International ESOL qualification portfolio is a stand-alone qualification and candidates are entered for listening, reading, use of English, writing and speaking at the same level. Candidates should ensure that the qualification level they are entered for reflects their ability and needs.

## Reasonable adjustments

Assessment should be a fair test of learners' skills and knowledge; for some learners the usual format of assessment may not be suitable or accessible. Learners with specific needs can apply for reasonable adjustments to be made to the examination. In order to make an application for a reasonable adjustment, centres should email [customer@esbuk.org](mailto:customer@esbuk.org) as soon as they book an examination. For further information about our policy in relation to access arrangements, please visit: <https://esbuk.org/web/app/uploads/2019/12/ESB-POL-10-Reasonable-Adjustments-and-Special-Considerations-Policy-v4.pdf>.

## Speaking Examination Format

The face-to-face speaking examination takes place separately from the written paper. The candidate is examined in a pair with a partner. In the event of an odd number of candidates, examinations may be conducted with three candidates.

The total time of the examination is 11 minutes (15 minutes for 3 candidates) and it is split into three distinct parts. An assessor and interlocutor are present in the room. The candidates are asked questions by the interlocutor and the process is observed by the assessor.

At the end of the examination the interlocutor will award each candidate a holistic score. The assessor will award a more analytical set of marks based on their observation of the exam and more detailed criteria. The total number of marks available for each candidate is thirty.

Candidates are marked analytically in five distinct areas: Grammar, vocabulary, interactive ability, discourse management and pronunciation. Details of the individual criteria can be found on page 21 of this document.

The examination is scripted and the interlocutor does not deviate from the script other than to select the topics and questions to be asked. Topics are rotated after each pair of learners to ensure no subsequent candidates have an unfair advantage.

ESB ESOL International Speaking Examinations make use of a list of twenty prescribed topics.

## Assessment, moderation and quality assurance

All completed scripts are marked and moderated by ESB's team of ESOL International Examiners and Moderators according to ESB policies.

Our markers are standardised and grade all written papers according to the ESB mark scheme which is linked to the CEFR level descriptors.

To ensure additional quality assurance throughout the process, all markers are moderated within each marking session and at least 20% of all written scripts are second marked to maintain standardisation levels.

Speaking examinations are carried out by ESB trained assessors and interlocutors according to our policies. Speaking examinations are marked as they happen. Both the interlocutor and the assessor award marks based on the ESB mark scheme linked to the CEFR level descriptors.

All ESOL International Speaking Examiners are trained and standardised by our Chief Examiner and Senior Examiners. In addition to this, ESB teams conduct live and recorded moderations of these examiners across the centres during each examination period.

All multiple-choice answer sheets are marked electronically by ESB and are subject to rigorous scrutiny and checks to ensure their accuracy at every stage of the marking process.

To ensure that our ESOL International qualifications are valid and fit-for-purpose, we review candidate performance to ensure that outcomes are fair and reliable. As a result, English Speaking Board (International) Ltd. reserves the right to make appropriate amendments to overall grade thresholds in order to maintain standards over time.

## Rating scales for Speaking

Mark B2	Grammar	Vocabulary	Interactive Ability	Discourse Management	Pronunciation
5	Structures mostly accurate for the level with only occasional minor slips.	Consistently demonstrates appropriate and extensive range of lexis for this level.	Sustained interaction in both initiating and responding which facilitates fluent communication. Very sensitive to turn-taking.	Consistently makes extensive, coherent and relevant contributions to the achievement of the task.	Use of stress and intonation puts very little strain on listener and individual sounds are articulated clearly. Utterances are consistently understandable.
4.5	More features of band 4 than band 5.				
4	Generally structurally accurate for the level but some non-impeding errors present.	Evidence of an extensive and appropriate range of lexis with occasional lapses.	Meaningful communication is largely achieved through initiating and responding effectively. Hesitation is minimal and the norms of turn-taking are generally applied.	Contributions are generally relevant, coherent and of an appropriate length.	Stress and intonation patterns may cause occasional strain on listener. Individual sounds are generally articulated clearly.
3.5	More features of band 4 than band 3.				
3	Reasonable level of structural accuracy but some impeding errors are acceptable.	Lexis is mostly effective and appropriate although range and accuracy are restricted at times.	Sufficient and appropriate initiation and response generally maintained throughout the discourse although there may be some undue hesitation. Turn-taking norms may not always be observed.	Contributions are normally relevant, coherent and of an appropriate length but there may be occasional irrelevancies and lack of coherence.	Use of stress and intonation is sufficiently adequate for most utterances to be comprehensible. Some intrusive L1 sounds may cause difficulties for the listener.
2.5	More features of band 3 than band 2.				
2	Frequent basic errors and a limited command of structure leading to misunderstandings.	Lexis is limited in terms of range and accuracy and may be inappropriate for the task.	Contributions limited and the patience of the listener may be strained by frequent hesitations. The norms of turn-taking are rarely observed.	Discourse is not developed adequately and may be incoherent and irrelevant at times.	Inadequacies in all areas of pronunciation put considerable strain on the listener.
1.5	More features of band 2 than band 1.				
1	Serious structural inaccuracy and lack of control which obscure intended meaning.	Insufficient or inappropriate lexis to deal with the task adequately.	Fails to initiate and/or respond. The interaction breaks down as a result of persistent hesitation. The norms of turn-taking are not observed.	Monosyllabic responses. Performance lacks relevance and coherence throughout.	Limited competence in all areas of pronunciation severely impedes comprehension.
0.5	More features of band 1 than 0.				
0	Too little speech to assess effectively.	Too little speech to assess effectively.	Too little speech to assess effectively.	Too little speech to assess effectively.	Too little speech to assess effectively.

**Grammar:** the range and accuracy of grammatical forms used at this level.

**Vocabulary:** candidates should have sufficient lexical resources to deliver their meaning with reasonable clarity.

**Interactive ability:** the candidate's ability to use language to engage in meaningful communication. This includes sensitivity to turn-taking, initiating, responding accordingly and asking questions to repair miscommunication.

**Discourse Management:** the extent, coherence and relevance of the candidate's contributions. This focus is on the candidate's ability to maintain a flow of language at a sentence level and to achieve the allocated tasks.

**Pronunciation:** individual sounds, rhythm, stress and intonation.
